Join Osmoste
Sr. Training Instructor, Leann Newcomb
for a three-day comprehensive
O-Calc Pro Training.

O-Calc[®] Pro TRAINING

San Diego, California
November 5-7, 2024 | 8 a.m. - 4 p.m.

November 5-6: O-Calc Pro Training

Develop your skills in the use of O-Calc Pro for pole loading analysis.

- Pole Loading 101, distribution regulations
- Distribution overhead equipment, and communication recognition
- Equipment catalogs, default settings, screen layouts, and file management
- Basic navigation, pole modeling, guy and anchor systems, templates and assemblies
- How to create generic equipment, and build communication bundles
- Digital measurement technology (DMT) using pole images, and fielding best practices
- Analyze results using reports and charts, and understanding wire tension types

November 7: Line Design Training

Increase your pole loading capability using O-Calc Pro Line Design.

- Model and analyze a line of poles
- Perform global edits and additions to the line
- Design poles using Map backgrounds

\$1,650 early bird pricing
includes lunch and beverages
(**\$1,950** after Oct. 4)
